DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-10, 13, 14, 16, 18-26, 28-34 and 36 allowed.

The following is a statement of reasons for the indication of allowable subject matter:

1.1 Independent claims 1, 22 and 25 of current invention disclose a voice messaging system having two voice mailboxes (which do not store voice messages) linked to a storage device (which stores voice messages) via Internet. Each mailbox links to a voicemail message by a reference. The storage device deletes the voicemail message upon a deletion of the reference from both the first voice mailbox and the second voice mailbox.

Claim 1 further discloses that the storage device stores a linked list associating with the voicemail message to one or movie voicemail component where the first and second voice mailboxes are located. Claims 22 and 25 further discloses that the voicemail message does not have any duplicate copies, and the first and the second mailboxes comprise an address including a domain name, a directory name and a file name of the voicemail message.

Prior arts of Gordon (US 5,608,786), Porter (US 5,963,618) and Picard (6,233,318) fail to teach the deleting feature together with other claimed limitations.

Art Unit: 2645

1.2 Independent claims 14 and 16 disclose a storage device coupled to a first voice mailbox and a second voice mailbox through Internet, and a method of copying an address of a voicemail message from the first voice mailbox to the second voice mailbox also comprising changing a correspondence of the voicemail message on the storage device from the first voice mailbox to the second voice mailbox. Gordon, Porter and Picard fail to teach copying address and changing correspondence features.

1.3 Other claims are dependent claims and therefore are allowed.
